

Neo Cloud Room - UI/UX Screen-Level User Flow & Component Specification

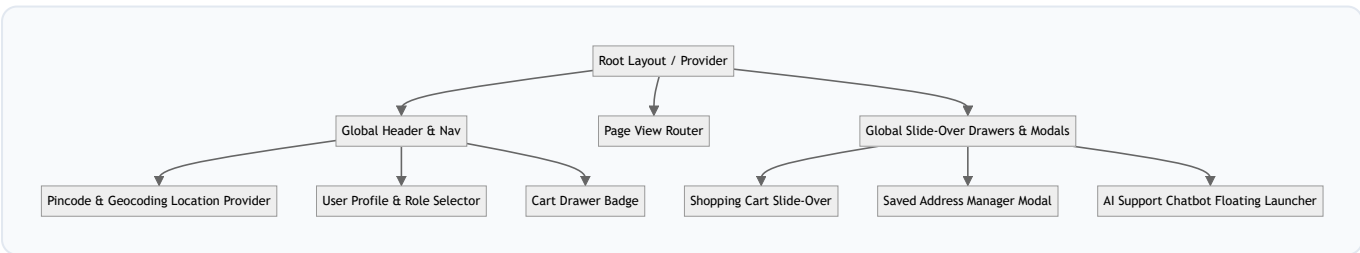

1. Document Overview & UI Architecture Guidelines

This document provides a comprehensive, screen-by-screen specification of user flows, navigation hierarchies, page components, forms, modals, actions, and state transitions for the **Neo Cloud Room (CloudKitchen)** platform. It serves as the authoritative blueprint for the UI/UX and Frontend Engineering teams.

System User Roles Covered

- 1. **Unauthenticated / Public Visitors**
- 2. **User / Customer** (`USER`)
- 3. **Seller / Vendor** (`SELLER` - Cloud Kitchen, Mess, Bakery, Room Host)
- 4. **Delivery Person / Rider Fleet** (`DELIVERY`)
- 5. **Support Staff** (`SUPPORT` - Customer Support & Refund Audit Operations)
- 6. **Field Agent / Branch Administrator** (`AGENT`)
- 7. **SuperAdmin** (`SUPERADMIN` - Master Platform Administrator)

2. Global UI Layouts & Shared Modal Specifications

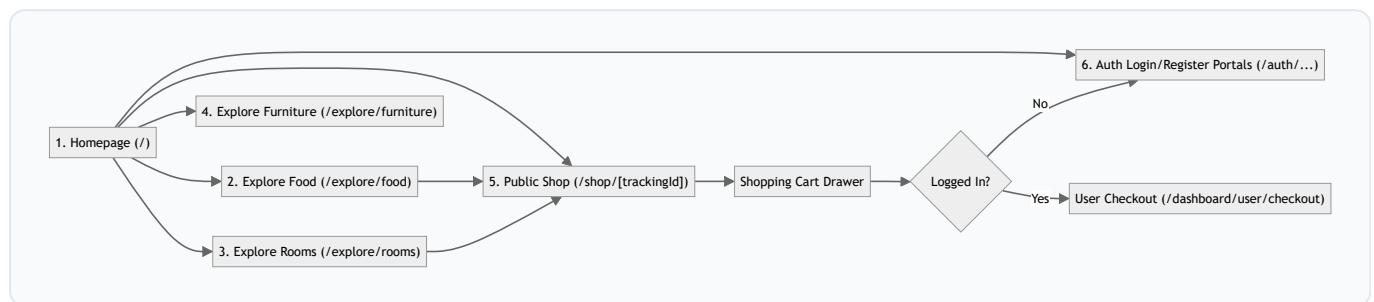

Shared Global UI Components

- **Location Provider Header** (`location-provider.tsx`): Displays current selected pincode and city; triggers the Address Selector / Geocoding Map Modal.
- **Cart Slide-Over Drawer** (`cart-buttons.tsx`): Displays cart items, quantity counters (`+` / `-`), seller store info, subtotal, and proceeds to Checkout.
- **Store Status Banner** (`store-status-toggle.tsx`): Header component allowing sellers to toggle store Online/Offline state (`isOnline`).

- **Subscription Gate Banner (`subscription-gate.tsx`)**: Sticky warning banner displayed to vendors when their subscription is inactive or expiring within 3 days.
- **Popup Promotional Banner Overlay (`PopupBannerDisplay.tsx`)**: Renders promotional popup banners triggered on homepage/store view.
- **Chatbot Floating Widget (`chatbot-widget.tsx`)**: Persistent floating action button on public/customer views launching the AI assistant drawer.

3. Public & Unauthenticated User Screen Flows

3.1 Screen: Homepage (/)

- **Route:** `src/app/page.tsx`
- **UI Elements:**
 - Global Navigation Header (Logo, Location Selector, Search Bar, Category Links, Cart Trigger, Login Dropdown).
 - Dynamic Promotional Carousel / Banner Section (`PopupBannerDisplay.tsx`).
 - Service Category Selector Cards: Food Kitchens, Mess Services, Bakery, Property Rooms, Furniture.
 - Pincode-Filtered Store Grid: Cards displaying Store Banner, Business Name, Rating Badge, Distance/Locality, Food Type Tag (`VEG` / `BOTH`), and Open/Closed status.
- **User Actions:**
 - Click Location Header → Opens Location Map/Pincode Modal.
 - Click Category Card → Navigates to `/explore/[category]` .
 - Click Vendor Store Card → Navigates to `/shop/[trackingId]` .

3.2 Screen: Catalog Exploration Pages

- **Routes:**
 - `/explore/food` : Food items grid with Veg/Non-Veg toggle, category tags, price slider, and operating hours status.
 - `/explore/rooms` : Property listings grid with capacity filter, nightly price filter, and date picker.
 - `/explore/furniture` : Furniture items gallery with "Inquire Details" button opening a direct store query modal.

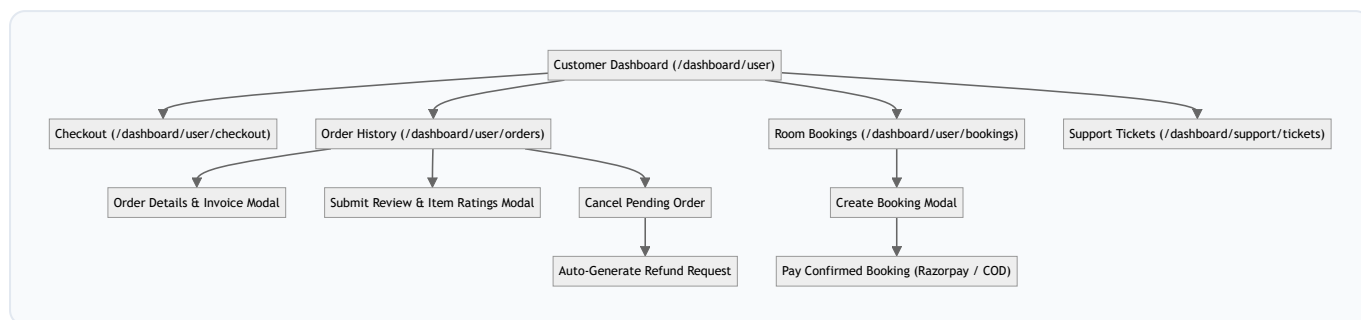

3.3 Screen: Public Vendor Shop Page (/shop/[trackingId])

- **Route:** `src/app/shop/[trackingId]/page.tsx`
- **UI Elements:**
 - Vendor Cover Banner, Business Logo, Store Name, Verification Badge, Food Type Tag, Rating Summary, Full Locality Address, UPI ID badge.
 - Operational Hours Card (Displays daily schedule and current Open/Closed status).
 - Tab Bar: `Food Menu` | `Room Listings` | `Reviews & Ratings`.
 - Food Menu Grid: Dish Card with Dish Image, Name, Category, Price, Veg/Non-Veg icon, Operational Time Tag, Stock Quantity indicator, and `+ ADD TO CART` button.
- **User Actions:**
 - Click `+ ADD TO CART` → Increments item count in Cart Drawer.
 - Click Item Card → Opens Dish Detail Modal.

3.4 Screen: Authentication & Registration Portal Routes

- **Routes:**
 - `/auth/login` : Customer login form (Email, Password, Remember Me, Submit, Google OAuth, Link to Register).
 - `/auth/login/seller` : Vendor login form.
 - `/auth/login/admin` : Admin, Agent, Superadmin, and Support Staff login portal.
 - `/auth/login/delivery` : Delivery Rider login form.
 - `/auth/register` : Onboarding role selection page ("Register as Customer" vs "Register as Vendor").
 - `/auth/register/user` : Customer registration form (Name, Email, Phone, City, Pincode, Password).
 - `/auth/register/page` : Multi-Step Vendor Registration Wizard:
 - **Step 1: Account Info:** Owner Name, Email, Phone, Password, Seller Role.
 - **Step 2: Business Info:** Business Name, Seller Type (Homely Food, Mess, Bakery), Category (`FOOD` , `PROPERTY` , `BOTH`), Food Type (`VEG` , `BOTH`), Address Flat, Locality, Landmark, City, Pincode.
 - **Step 3: Identity & Legal Proofs:** Upload inputs for Adhaar Front File, Adhaar Back File, FSSAI License File, Electricity/Light Bill, Bank Passbook.
 - **Step 4: Store Photo Galleries:** Upload inputs for Kitchen Images (Max 3), Cuisine Images (Max 3), Room Images (Max 3).
 - **Step 5: Confirmation:** Summary display + Submission button → Generates unique Store Tracking ID (e.g. `SHOP-X7K2P9`) and routes to PENDING status screen.
-

4. User / Customer Screen Flows (/dashboard/user/ ...)

4.1 Screen: Customer Overview Dashboard (/dashboard/user)

- **Route:** `src/app/dashboard/user/page.tsx`
- **UI Elements:**
 - Welcome Banner with User Name and Current Location Pincode.
 - Stat Cards: Active Orders, Upcoming Bookings, Saved Addresses count.
 - Recent Orders Widget: Card view of recent 3 orders with status badges (`PENDING` , `PREPARING` , `OUT_FOR_DELIVERY` , `DELIVERED`).

4.2 Screen: Food Order Checkout Page (/dashboard/user/checkout)

- **Route:** `src/app/dashboard/user/checkout/page.tsx`
- **UI Elements:**
 - Delivery Address Selector: Cards for saved addresses (Home/Work/Other) with pincode and default badge; "+ Add New Address" button opening Geocoding Map Modal (`house-map-picker.tsx`).
 - Order Items Summary: List of cart items with quantity controls, unit price, item subtotal, and stock availability badge.
 - Promotional Coupon Box: Input field for discount code + `APPLY` button. Displays applied discount amount and eligibility error messages (e.g., minimum cart value required).
 - Operational & Pincode Checks Banner: Warns if any item is closed or undeliverable to the selected address.
 - Payment Method Selector: Radio options for `Cash on Delivery (COD)` vs `Online Payment (Razorpay)` .
 - Order Financial Breakdown: Items Subtotal, Taxes & Delivery Fee, Coupon Discount, Total Amount.
 - `PLACE ORDER` Action Button.
- **State Transitions:**
 - If `Online Payment` → Triggers Razorpay payment modal → On success, calls `/api/user/orders/verify` - > Redirects to Order Details page.
 - If `COD` → Creates order directly → Redirects to Order History page.

4.3 Screen: Order History & Invoice Page (/dashboard/user/orders)

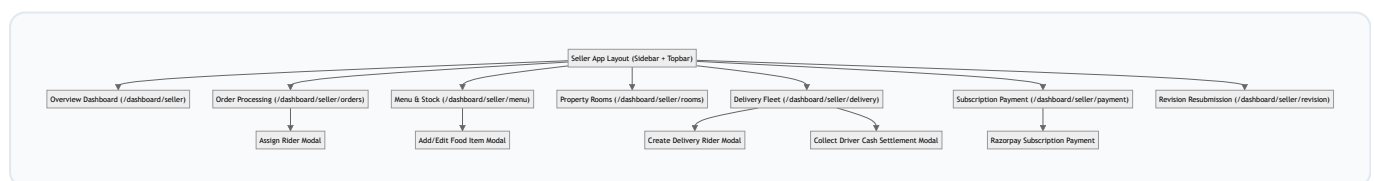

- **Route:** `src/app/dashboard/user/orders/page.tsx` & `/invoice/order/[id]/page.tsx`
- **UI Elements:**
 - Filter Tabs: `All Orders` | `Active` | `Completed` | `Cancelled` .

- Order Card List: Order ID (Short Hash), Store Name, Date/Time, Items Summary, Total Amount, Payment Status Badge (`PAID` vs `UNPAID`), Order Status Badge (`PENDING` , `PREPARING` , `OUT_FOR_DELIVERY` , `DELIVERED` , `CANCELLED`).
- Action Buttons on Cards:
 - `View Details` → Opens Order Details Slide-Over (Assigned rider info, delivery address, itemized breakdown).
 - `Download Invoice` → Navigates to printable HTML Tax Invoice (`/invoice/order/[id]`).
 - `Cancel Order` → Available only when status is `PENDING` . Confirms cancellation, restores inventory, and auto-queues refund if prepaid.
 - `Write Review` → Available when status is `DELIVERED` . Opens Review & Item Rating Modal.
- **Review & Item Rating Modal:**
- Overall Order Rating: 1 to 5 Star selector + Written Feedback Textarea.
- Dish-Specific Ratings: List of ordered food items, each with 1 to 5 Star selector and item comment field.

4.4 Screen: Property Room Bookings (`/dashboard/user/bookings`)

- **Route:** `src/app/dashboard/user/bookings/page.tsx`
- **UI Elements:**
- Bookings List: Property Name, Room Title, Check-in Date, Check-out Date, Total Nightly Amount, Booking Status (`PENDING` , `CONFIRMED` , `CANCELLED`), Payment Status.
- Action Buttons:
 - `Pay Now` → Enabled when status is `CONFIRMED` and `isPaid = false` . Launches Razorpay Checkout or confirms COD payment.
 - `Request Cancellation` → Cancels pending/confirmed booking and submits refund request if paid.

5. Seller / Vendor Screen Flows (`/dashboard/seller/ ...`)

5.1 Screen: Seller Dashboard Overview (`/dashboard/seller`)

- **Route:** `src/app/dashboard/seller/page.tsx`
- **UI Elements:**
- Top Bar: Store Status Toggle (`store-status-toggle.tsx`), Subscription Gate Warning Banner (`subscription-gate.tsx`).
- Stat Widgets: Today's Revenue, Total Orders Completed, Active Subscriptions Expiry Date, Delivery Riders Active Count.
- Live Order Queue Widget: Real-time incoming orders list with sound notification alert.

5.2 Screen: Revision Resubmission Page (`/dashboard/seller/revision`)

- **Route:** `src/app/dashboard/seller/revision/page.tsx`
- **Condition:** Automatically activated when vendor `verificationStatus = REVISION` .
- **UI Elements:**
 - Alert Banner displaying Administrator Revision Notes (`verificationNote`).
 - Resubmission Form: File inputs for resubmitting updated Adhaar Front/Back, FSSAI License, Electricity Bill, Bank Passbook, Kitchen, Cuisine, or Room photos.
 - `RESUBMIT FOR VERIFICATION` Action Button → Resets status to `PENDING` for re-auditing.

5.3 Screen: Order Management & Rider Assignment (`/dashboard/seller/orders`)

- **Route:** `src/app/dashboard/seller/orders/page.tsx`
- **UI Elements:**
 - Tabbed Order Board: `Pending` | `Preparing` | `Out for Delivery` | `Completed` | `Cancelled` .
 - Order Processing Card: Order ID, Customer Name, Phone, Items List, Delivery Address, Total Amount, Payment Badge (`COD` vs `ONLINE`).
 - Status Action Buttons:
 - `Accept & Start Preparing` → Changes status `PENDING` → `PREPARING` .
 - `Assign Rider & Dispatch` → Opens Assign Rider Modal. Selects rider from active delivery fleet → Updates status to `OUT_FOR_DELIVERY` .
 - `Mark Delivered` → Used for direct store delivery → Updates status to `DELIVERED` .

5.4 Screen: Menu & Food Inventory Management (`/dashboard/seller/menu` , `/dashboard/seller/inventory`)

- **Route:** `src/app/dashboard/seller/menu/page.tsx` & `/dashboard/seller/inventory/page.tsx`
- **UI Elements:**
 - Food Category Tabs & Add New Item Button.
 - Food Item Grid: Image, Name, Price, Veg/Non-Veg Tag, Stock Counter Badge (-1 for infinite, or numeric counter), Availability Toggle Switch.
 - **Add / Edit Food Item Modal:**
 - Item Name, Description, Price, Food Type (`VEG` / `NON_VEG`).
 - Stock Quantity (-1 for unlimited, or numeric value).
 - Category & Sub-category selectors.
 - Delivery Pincodes Input (Comma-separated pincodes).
 - Operational Hours Editor: Weekly schedule grid (Mon-Sun) with `isOpen` checkboxes and `openTime` / `closeTime` time pickers.
 - **Served Pincodes Manager Modal:** Add or delete pincodes served by the kitchen.

5.5 Screen: Property & Room Management (`/dashboard/seller/rooms`)

- **Route:** `src/app/dashboard/seller/rooms/page.tsx`

- **UI Elements:**
- Room Listings Grid: Room Photo Carousel, Title, Nightly Price, Capacity, Availability Toggle.
- **Add / Edit Room Modal:** Title, Description, Capacity, Nightly Price, Multi-photo upload inputs, Availability toggle.
- Room Bookings Tab: List incoming booking requests (`PENDING`), `CONFIRM BOOKING` button, `CANCEL BOOKING` button.

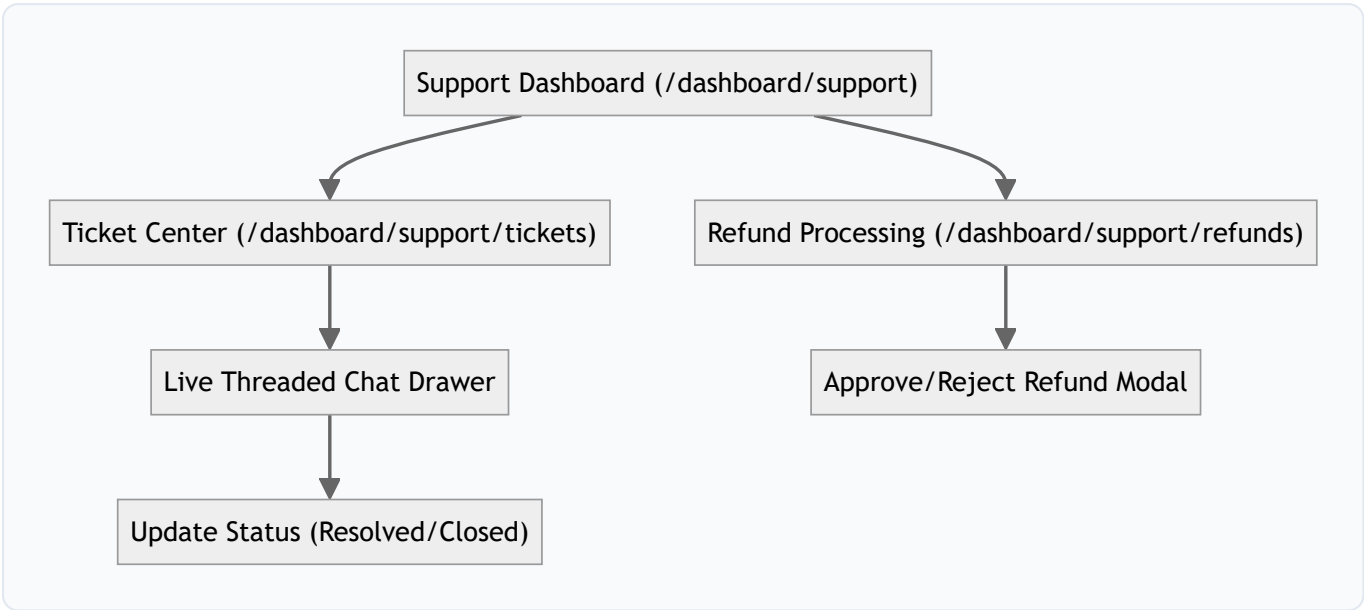

5.6 Screen: Delivery Fleet & COD Settlement (`/dashboard/seller/delivery`)

- **Route:** `src/app/dashboard/seller/delivery/page.tsx`
- **UI Elements:**
- Delivery Drivers Table: Driver Name, 10-digit Phone, Email, Outstanding COD Cash Balance badge, Status (`ACTIVE` / `INACTIVE`).
- **Create Delivery Person Modal:** Form fields for Name, 10-digit Phone (validated regex `^[0-9]{10}$`), Email, Password, City, Pincode.
- **Collect Cash Settlement Modal:** Selects rider, displays current `outstandingBalance` , input field for cash collected (must be $> ₹1$ and $\leq$ outstanding balance), `SUBMIT SETTLEMENT` button → Logs `SETTLEMENT` transaction and decrements driver balance.
- Driver Transaction History Modal: Displays ledger of rider's `COD_COLLECTION` (+), `SETTLEMENT` (-), and `ADJUSTMENT` (+/-) transactions.

5.7 Screen: Subscription Plans & Payment (`/dashboard/seller/payment`)

- **Route:** `src/app/dashboard/seller/payment/page.tsx`
 - **UI Elements:**
 - Current Active Subscription Card: Plan Name, Category (`FOOD` / `PROPERTY` / `BOTH`), Expiry Date, Days Remaining.
 - Plan Selector Cards: Monthly/Yearly Plans with feature checkmarks and prices.
 - Subscription Coupon Code Input + `APPLY COUPON` button.
 - Final Discounted Price Calculation display + `PAY WITH RAZORPAY` button.
 - **State Transition:** Upon successful Razorpay payment verification, plan validity stacks from current expiration date and unlocks store operations.
-

6. Support Staff Screen Flows (`/dashboard/support/ ...`)

6.1 Screen: Support Ticket Resolution Center (`/dashboard/support/tickets`)

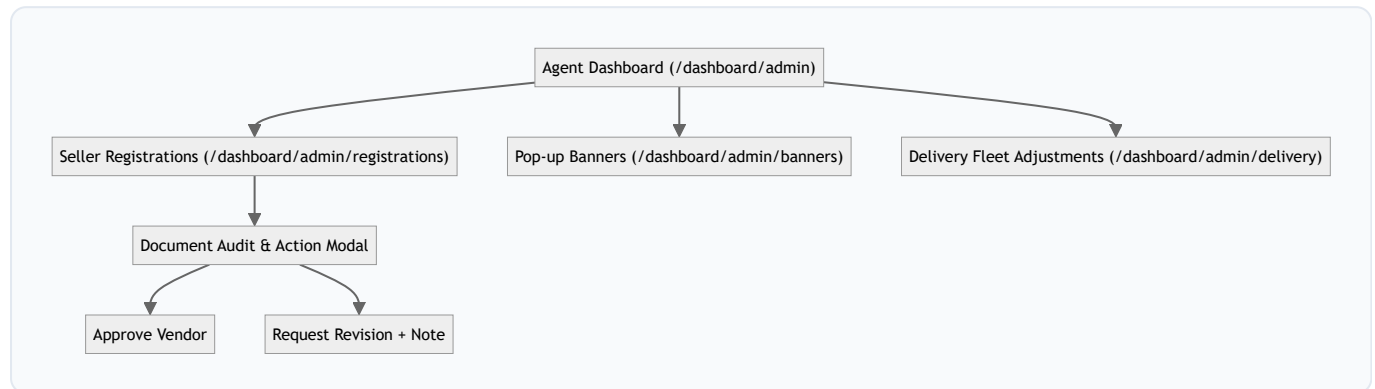

- **Route:** `src/app/dashboard/support/tickets/page.tsx`
- **UI Elements:**
 - Category Filter Tabs: `All` | `Food` | `Room` | `Payment` | `Other` .
 - Status Filter Tabs: `OPEN` | `IN_PROGRESS` | `RESOLVED` | `CLOSED` .
 - Ticket List Table: Ticket ID, Customer Name, User Role, Issue Title, Category Badge, Last Updated Timestamp, Status Badge.
- **Threaded Live Chat Drawer:**
 - Header: Ticket ID, Title, User Info, Status Dropdown.
 - Chat History Stream: Scrollable message list with timestamped bubbles (User messages vs Support Staff replies).
 - Reply Composer: Textarea + `SEND REPLY` button.
 - `MARK RESOLVED` / `CLOSE TICKET` Action Buttons.

6.2 Screen: Refund Audit & Financial Fulfillment (`/dashboard/support/refunds`)

- **Route:** `src/app/dashboard/support/refunds/page.tsx`
- **UI Elements:**
 - Refund Requests Table: Refund ID, User Name & Email, Order / Booking ID, Requested Amount (₹), Reason, Status (`PENDING` , `APPROVED` , `REJECTED`), Date.
- **Refund Action Modal:**
 - Displays Order/Booking details and proof of payment.
 - Input Field: Bank Transaction Reference ID (`transactionId`).
 - Input Field: Administrative Notes (`adminNote`).

- Action Buttons: `APPROVE REFUND` (Updates refund status `APPROVED` , sets order `isPaid = false` or booking `status = CANCELLED`) vs `REJECT REFUND` (Updates refund status `REJECTED`).

7. Field Agent / Admin Screen Flows (`/dashboard/admin/ ...`)

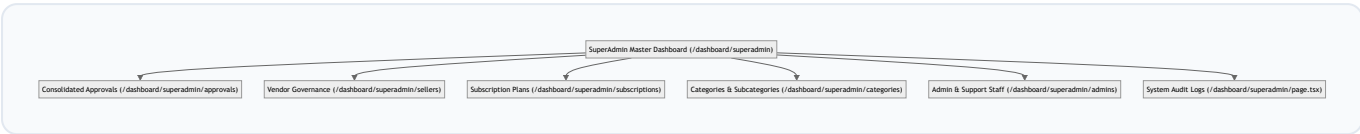

7.1 Screen: Seller Document Verification & Audit (`/dashboard/admin/registrations`)

- **Route:** `src/app/dashboard/admin/registrations/page.tsx`
- **UI Elements:**
- Pending Vendors List: Business Name, Owner Name, Contact Phone, City, Tracking ID, Category (`FOOD` / `PROPERTY` / `BOTH`), Verification Status.
- **Document Inspection Modal:**
 - Tabbed Gallery: `Adhaar Front/Back` | `FSSAI License` | `Electricity Bill` | `Passbook` | `Kitchen Photos` | `Room Photos` .
 - Verification Feedback Textarea (`verificationNote`).
 - Action Buttons:
 - `APPROVE SELLER` : Sets `verificationStatus = APPROVED` and category verification status to `APPROVED` .
 - `REQUEST REVISION` : Requires feedback note entry; sets `verificationStatus = REVISION` .
 - `REJECT SELLER` : Sets `verificationStatus = REJECTED` .

7.2 Screen: Delivery Driver Wallet Adjustments (`/dashboard/admin/delivery`)

- **Route:** `src/app/dashboard/admin/delivery/page.tsx`
- **UI Elements:**
- Drivers Wallet Overview Table: Rider Name, Phone, Employing Seller Name, Current Outstanding Balance (₹).
- **Balance Adjustment Modal:**
 - Adjustment Type Selector: `INCREMENT` (Increase cash owed) vs `DECREMENT` (Decrease cash owed).
 - Amount Input field (₹).
 - Reason Description Textarea (`description`).
 - `SUBMIT ADJUSTMENT` Button → Creates `ADJUSTMENT` delivery transaction and updates rider balance.

8. SuperAdmin Screen Flows (/dashboard/superadmin/ ...)

8.1 Screen: Master System Dashboard (/dashboard/superadmin)

- **Route:** `src/app/dashboard/superadmin/page.tsx`
- **UI Elements:**
- Platform System Metrics: Gross Revenue, Total Active Sellers, Total Customers, Active Subscriptions Revenue, System Audit Log Feed.

8.2 Screen: Consolidated Approvals Engine (/dashboard/superadmin/approvals)

- **Route:** `src/app/dashboard/superadmin/approvals/page.tsx`
- **UI Elements:**
- Tabs: `Pending Pop-up Banners` | `Pending Store Coupons` .
- Item Inspection Cards: Title, Banner Image preview / Coupon Discount details, Seller Name, Created Date.
- Action Buttons: `APPROVE` | `REJECT` | `REQUEST REVISION` (with admin note).

8.3 Screen: Subscription Plans & Coupons Manager (/dashboard/superadmin/subscriptions)

- **Route:** `src/app/dashboard/superadmin/subscriptions/page.tsx`
- **UI Elements:**
- Active Plans Table & Active Subscription Coupons Table.
- **Create / Edit Plan Modal:** Plan Name, Monthly Price, Duration (Months), Category (`FOOD` / `PROPERTY` / `BOTH`), Features JSON editor.
- **Create / Edit Subscription Coupon Modal:** Code, Discount %, Discount Amount, Target Plan, Max Usages cap, Expiry Date.

8.4 Screen: Food Categories & Taxonomy Editor (/dashboard/superadmin/categories)

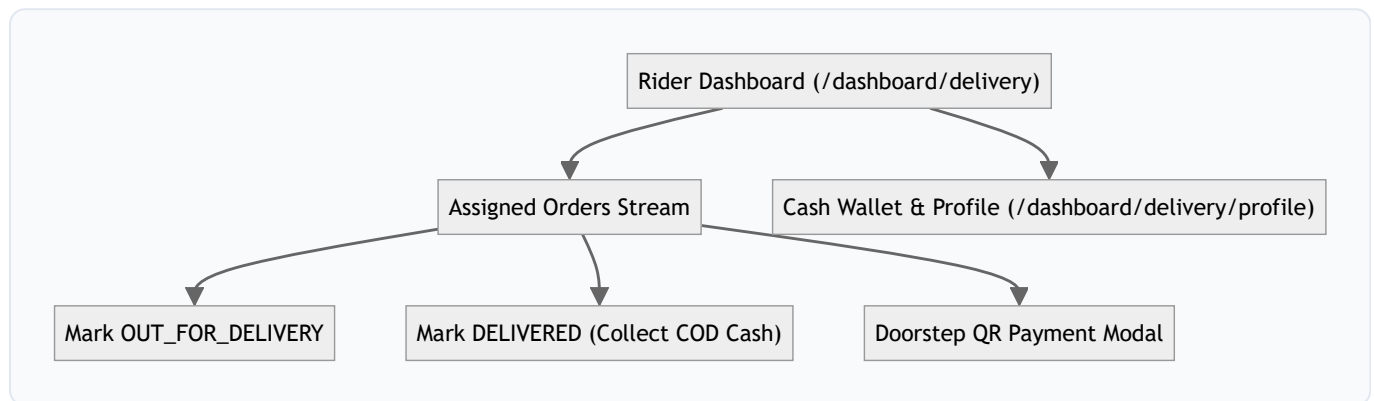

- **Route:** `src/app/dashboard/superadmin/categories/page.tsx`
- **UI Elements:**
- Top Categories Table & Food Sub-Categories Tree View.
- **Create Category Modal:** Category Name, Type (`FOOD` vs `ROOM`).
- **Create Food Sub-Category Modal:** Sub-category Name, Parent Category select, Image Upload.

8.5 Screen: Staff & Agent Account Management (/dashboard/superadmin/admins)

- **Route:** `src/app/dashboard/superadmin/admins/page.tsx`
- **UI Elements:**
- Administrative Accounts Table: Staff Name, Email, Role (`AGENT` vs `SUPPORT`), Assigned Sellers count, Active status.

- **Create Admin / Support Staff Modal:**
 - Form Fields: Name, Email, Password, Role Dropdown (`AGENT` vs `SUPPORT`).
 - Agent Permission Checkboxes: `Can Manage Offers` , `Can Manage Banners` .
 - `CREATE ACCOUNT` Action Button.

9. Delivery Rider Screen Flows (`/dashboard/delivery/ ...`)

9.1 Screen: Delivery Rider Dashboard & Orders Stream (`/dashboard/delivery`)

- **Route:** `src/app/dashboard/delivery/page.tsx`
- **UI Elements:**
 - Header: Rider Name, Employing Seller Name, Outstanding COD Cash Balance (₹).
 - Assigned Orders Cards: Order ID, Customer Name, Contact Phone, Delivery Address, Items List, Payment Method (`COD` vs `ONLINE`), Total Amount.
 - Action Buttons:
 - `Start Delivery` → Updates order status to `OUT_FOR_DELIVERY` .
 - `Mark Delivered (Collect COD Cash)` → Triggers confirmation modal → Sets status to `DELIVERED` , marks `isPaid = true` , increments rider `outstandingBalance` by total amount, and creates `COD_COLLECTION` transaction.
 - `Doorstep Online QR` → Generates Razorpay QR code for customer to scan and pay at doorstep.

9.2 Screen: Rider Cash Wallet & Profile (`/dashboard/delivery/profile`)

- **Route:** `src/app/dashboard/delivery/profile/page.tsx`
- **UI Elements:**
 - Outstanding Balance Indicator (Displays physical cash owed to employing seller).
 - Cash Transaction History Ledger Table: Date, Transaction Type (`COD_COLLECTION` [+], `SETTLEMENT` [-], `ADJUSTMENT` [+/-]), Order ID, Amount, Description.
 - Profile Form: Edit Phone Number, City, Pincode.

10. Complete Screen Route Mapping Table

Role	Screen Name	Route Path	Primary Actions & State Transitions
Public	Homepage	/	Explore categories, filter stores by pincode, view popup banners.
Public	Vendor Shop Page	/shop/[trackingId]	View store menu/rooms, add items to cart drawer, check open hours.
Auth	Customer Register	/auth/register/user	Register new customer account.
Auth	Vendor Register Wizard	/auth/register/page	5-step vendor registration with document & photo uploads.
User	Customer Dashboard	/dashboard/user	View active orders summary, bookings count, saved addresses.
User	Food Checkout	/dashboard/user/checkout	Select delivery address, validate coupon, choose COD/Razorpay.
User	Order History & Invoice	/dashboard/user/orders	View order status, download invoice, cancel pending order, submit review.
User	Room Bookings	/dashboard/user/bookings	Request room dates, track approval, pay confirmed booking.
Seller	Seller Overview	/dashboard/seller	Revenue analytics, store Online/Offline toggle, live order stream.
Seller	Profile Revision	/dashboard/seller/revision	Resubmit corrected documents when profile is in REVISION state.
Seller	Order Processing	/dashboard/seller/orders	Accept orders, start preparing, assign delivery rider, dispatch.
Seller	Menu & Inventory	/dashboard/seller/menu	Add/edit dishes, operational hours schedule, stock counters, pincodes.
Seller	Fleet & COD Settlement	/dashboard/seller/delivery	Create riders, collect cash settlements, inspect driver wallet ledger.

Role	Screen Name	Route Path	Primary Actions & State Transitions
Seller	Subscriptions	/dashboard/seller/payment	Select plan, apply subscription coupon, complete Razorpay payment.
Support	Ticket Center	/dashboard/support/tickets	View all user/vendor tickets, live threaded chat, update ticket status.
Support	Refund Audit	/dashboard/support/refunds	Audit refund claims, enter bank reference ID, approve or reject refunds.
Agent	Vendor Verification	/dashboard/admin/registrations	Audit vendor docs/photos, approve vendor, request revision with notes.
Agent	Fleet Adjustments	/dashboard/admin/delivery	Adjust rider outstanding balances (INCREMENT / DECREMENT).
Super	Approvals Engine	/dashboard/superadmin/approvals	Consolidated audit for seller coupons and global popup banners.
Super	Subscription Plans	/dashboard/superadmin/subscriptions	Create/edit subscription plans and subscription discount coupons.
Super	Staff Governance	/dashboard/superadmin/admins	Create Agent and Support Staff accounts with granular permissions.
Rider	Rider Dashboard	/dashboard/delivery	View assigned orders, mark out for delivery, mark delivered (collect COD).
Rider	Wallet Ledger	/dashboard/delivery/profile	View outstanding cash balance, track cash settlements & adjustments.

UI/UX Screen-Level User Flow Specification compiled for the Neo Cloud Room Design & Development Team.
